 ASSEMBLED AND FINISHED IN USA**

BRICK RED

BLACK

BAYBERRY

*Our Great American Saddle Stools are now finished in **GENERAL FINISHES MILK PAINTS.** These new finishes are hand Rubbed to give the look of Antiquity in saddle stools.*

ENVIRONMENTALLY SAFE

Milk paint recipes include casein, lime, clays, and earth pigments. They are then coated with a finish coat of water based lacquer. All products used in finishing are organic raw materials. All materials used are water based products and environmentally safe and non-toxic. We pride ourselves on changing to the latest technology in finishes. Unlike other types of paint that form a skin on the surface of the wood, milk paint has a low viscosity and soaks into raw wood. The finish becomes increasingly durable with age. Available in Brick Red, Basil, Bayberry, Antique White and Linen Along with Lamp Black.

AVAILABLE IN:

**18" CHAIR OR VANITY HEIGHT
 24" COUNTER HEIGHT
 30" BAR HEIGHT.**
